

### Response

Claims 30-38 were pending prior to entry of the preceding amendments, and *claims 30-40* are pending now. Applicant confirms as accurate the substance of the interview as recorded by the Examiner in the Interview Summary. Accordingly, Applicant has amended claims 30 and 35 as agreed with the Examiner during the interview and added dependent claims 39-40 addressing other features of the invention discussed with the Examiner. Applicant also has clarified claims 32-33 for consistency with the amendments to claim 30. Applicant believes these revisions place the application in condition for allowance.

### Conclusion

Applicant requests that the Examiner allow claims 30-40 and that a patent containing these claims issue in due course.

Respectfully submitted,
